PROVISION OF NURSING SERVICES BY TELECOMMUNICATIONS/ELECTRONIC MEANS

Questions and responses regarding provision of nursing services by telephone/electronic transmission are provided below:

1. What are the nurse licensure requirements for an RN handling telephone calls for patients calling from or residing in Iowa?

In keeping with 655 IAC 3.2(1), nurses who respond to telephone calls from patients calling from Iowa shall have a current Iowa license, whether or not the employer is in Iowa or whether or not the person receives compensation.

2. Does the provision of nursing service by electronic transmission constitute the practice of nursing?

Yes, the delivery of nursing services by telephone or any other electronic means constitutes the practice of nursing.

3. Is the provision of nursing by electronic means included in the definition of "patient care" as utilized in IAC 655 3.2(2)a.?

When the nurse uses electronic means to gather information from a client and gives advice based on assessment of the client, that is the practice of nursing and is the provision of patient care. In fact, the accountability in this type of situation is just as great, if not greater, than in some situations in which the nurse is providing direct physical care.

4. A patient resides in Iowa and is a patient of a local physician. The patient travels outside of Iowa and calls into their local physician's office/clinic or a 24 hour nurse call center. Can the RN working in the physician's office/clinic or 24 hour call center answer the patient's questions or give advice to the patient?

Yes, the RN must have a current Iowa license and must practice within the guidelines of the Iowa Administrative Code. Also it is important to note that the patient must be in transit and not residing in another state.

5. Patient resides outside of Iowa and calls into the Iowa based physician's office/clinic or 24 hour nurse call center. Can the RN working in the physician's office/clinic or 24 hour nurse call center answer the patient's questions or give advice to the patient?

If the state in which the patient is calling from is a member of the nurse licensure compact agreement, YES. This decision is based on where the patient is located at the time care is rendered.

NOTICE FROM THE NATIONAL CERTIFICATION CORPORATION (NCC) WOMEN'S HEALTH CARE NURSE PRACTITIONER (WHNP) AND THE NEONATAL NURSE PRACTITIONER (NNP)

Certification Eligibility Criteria Changes

This announcement contains important information about changes to the NCC certification program for the Women's Health Care Nurse Practitioner (WHNP) and the Neonatal Nurse Practitioner (NNP) examinations that NCC sponsors. If you are currently certified by NCC, these changes will have no effect on your certification. However, if you let your certification lapse, you will be subject to these changes.

- Beginning on January 1, 2007 NCC will no longer recognize certificate education as an eligibility criterion to take the NCC WHNP examination. To qualify to take NCC WHNP examination, graduation from a Master's or post master's WHNP program that meets NCC current requirements will be required. NNP certificate education has not been recognized by NCC for exam eligibility purposes since January 1, 2000.
- Beginning January 1, 2007, NCC will only consider applicants from programs that hold CCNE and NLNAC accreditation during the time the accreditation process incorporated the Criteria for Evaluation of Nurse Practitioner Programs, National Task Force On Quality Nurse Education (National Task Force Guidelines) into their accreditation review.
- The accreditation organizations began such standard incorporation into their accreditation review January 1, 2005. Therefore, graduates from programs prior to January 1, 2005 will no longer be eligible to take or retake an NCC WHNP or NNP exam. The only way such individuals would qualify to take an NCC NP exam is to go back to a current NP program that meets NCC current requirements and earn a master's or post master's degree.
- Individual program reviews from defunct programs will no longer be undertaken. All individuals must be a graduate of WHNP or NNP program at the graduate level that meets NCC current requirements and are accredited by either CCNE or NLNAC.

Implication for Current NCC RNCs Certified As Nurse Practitioners

RNCs (certified as NPs) who let their certification lapse will be subject to these new eligibility criteria for re-examination. Therefore, any RNC who graduated from a certificate program or who graduated from a WHNP or NNP graduate program prior to January 1, 2005 would not be eligible to retake the examination to regain certification status.

NCC examinations are offered via computer all year around so individual NPs who are graduates of programs prior to 2005 or who are certificate prepared WHNPs are still able to take the examinations before the new criteria go into effect at the first of the year. Registration materials are available on the NCC website at www.nccnet.org.

Thank you for reading this announcement and sharing information with those who might benefit from its contents.

NURSE MIDWIFE COMMITTEE

The board is seeking to establish a five-member committee with the charge to review board rules regarding scope of practice for nurse midwives, and make recommendations. Nominations are being sought to fill two positions on that committee, designated for Advanced Registered Nurse Practitioners who are not certified as Nurse Midwives.

Any licensee interested in serving on this committee, should submit nominations and resumés to the board office at 400 S.W. 8th Street, Suite B, Des Moines, IA 50309-4685. The deadline for submitting the necessary materials is November 15, 2006.

PROCEDURES FOR INACTIVE STATUS

- Requests for inactive status from licensees will NOT be accepted.
- Licensees will no longer need to request to place their Iowa license on inactive status when they move out of state or are no longer practicing in the nursing field. (The license will be placed inactive 30 days after expiration.)
- Delinquent status has been eliminated.
- Licensees who do NOT renew their Iowa license within 30 days after expiration will automatically be placed on inactive status.
- For reactivation of an inactive license the licensee will be required to submit a reactivation application and the fee of \$225.00. The continuing education requirement for reactivation is 1.2 Continuing Education Units or 12 Contact Hours that were earned in the previous 12 months. Two fingerprint cards are also required, to conduct a criminal history background check.
- Licensees who move to another compact state and are issued a license in the new compact state will have their Iowa license placed inactive immediately upon issuance of the new license. The Iowa license will need to be returned to the Iowa Board of Nursing office.
- Licensees who inadvertently allow their license to become inactive and continue to work using the inactive license will be brought to the attention of the Enforcement Unit for Investigation. Reactivation of the license will require a reactivation application, proof of 1.2 Continuing Education Units or 12 Contact Hours, two fingerprint cards, and the fee of \$225.00.
- Iowa law requires you to keep the board informed of any name or address changes, even when your license is on inactive status.

MANDATORY TRAINING ON ABUSE IDENTIFICATION AND REPORTING

Legislation passed during the 2001 Iowa General Assembly mandates that licensing boards, including the Iowa Board of Nursing, require a person, who regularly examines, attends, counsels, or treats dependent adults or children in Iowa, upon renewal of licensure to accurately document compliance with training requirements on abuse education and/or dependent adult abuse. The course must have been completed within the last 5 years. Licensees who were previously certified using the old curriculum may use that certification to meet the board requirements. Individuals who take the course after September 26, 2002, will be required to complete a course approved by the Iowa Department of Public Health Abuse Education Review Panel. A list of approved courses is available at

www.idph.state.ia.us/bhpl/abuse_ed_review.asp

NURSE LICENSURE COMPACT

The Iowa Board of Nursing is pleased to be a member of the nurse licensure compact. This new form of licensure and regulation will better protect the public by:

Allowing competent nurses to provide care both physically and electronically wherever care is needed;

Providing the public ready access to and a choice of qualified nurses;

Protecting clients against incompetent nurses or unsafe nursing care through better communication between boards of nursing, cooperative disciplinary investigations and prompt reporting of disciplinary action;

Benefiting employers of nurses by having a more mobile workforce and a convenient centralized database for verification of licensure credentials.

Understanding the Basics

The nurse licensure compact allows a nurse who resides in a compact state to hold ONE license in the nurse's primary state of residence and practice in all other states in which the compact is in effect. Primary state of residence is where the nurse holds a driver's license, pays taxes and/or votes.

The compact requires the nurse to practice according to the laws and regulations of the state in which the nurse provides care where the patient is located at the time the care is provided. The practice laws and regulations for many states are available online.

A nurse who is under discipline may be in a monitoring agreement, which restricts practice across state lines.

If you hold a license in a COMPACT state and RESIDE in that COMPACT state, your license is a multistate license which authorizes you to practice in any other compact state.

If you hold a license in a COMPACT state, but do not RESIDE in that compact state (reside in a non-compact state), your license is a single state license and it authorizes you to practice only in that compact state. For example, if you hold an Iowa nursing license, but do not live in Iowa, the license is a single state license and does not grant you the privilege to practice in any other state.

If you are licensed in both Iowa and another compact state and RESIDE in the other compact state, your Iowa nursing license will be administratively placed on inactive status immediately. Only one active license can be held by a licensee among the compact states.

The compact does not supersede federal law. Therefore if you are employed in military service or work for the federal government, you may continue to hold a nursing license in any state you choose. If you are working as a nurse in a nongovernmental capacity, you are required to contact the state board of nursing in that state to determine if a nursing license is required.

If you move from one compact state to another compact state and practice nursing, you must obtain a license in your new home state. However, you may continue to practice under the former home state license and the multistate licensure privilege in the new home state for a period not to exceed 30 days.

- a. The 30-days shall begin with the date of hire/employment in the new primary state of residence.
- b. If the licensee begins employment before changing primary state of residence, the 30-days begins upon the date that the licensee establishes the new primary state of residence.

For updates on compact information or a list of compact states go to: www.ncsbn.org/nlc/index.asp

April 5, 2006 conference call

May 11, 2006 conference call

LPN SUPERVISION IN LONG TERM CARE FACILITIES

In order for an LPN to supervise in an intermediate or skilled health care facility, the LPN MUST satisfactorily complete the board approved LPN Supervisory Course within six (6) months of employment in the supervisory role. The course is designed specifically for the supervision role in the long term care patient setting. A board approved nursing program or an approved provider of continuing education must provide the course.

The area community colleges offer courses. It is the responsibility of the licensed practical nurse to maintain his or her certificate documenting completion of the course.

A licensed practical nurse is entitled to supervise without the educational requirement outlined above if the licensed practical nurse was performing in a supervisory role on or before October 6, 1982. Verification is required.

If licensees are unable to obtain the course within the first six months of employment, the LPN must write to the Board explaining the reason a waiver of the LPN Supervisory Course is being requested.

Licensed practical nurses who are enrolled full-time in a registered nurse program are not exempt from the course. However, an LPN who is a full-time student in an RN program and/or who is scheduled to graduate within one year, may request a waiver by writing to the board office. The request for a waiver must state the number of credit hours to be taken each semester and include the student's expected date of graduation.

Individuals who do not graduate from the RN program as scheduled or who are not successful on the RN-NCLEX® must take the next available course.

LICENSE RENEWAL . . . ONLINE

The Iowa Board of Nursing has made renewing licenses easier for many nurses in Iowa through online license renewal. Although many nurses are taking advantage of this service, there are still many more nurses who could benefit from it. There are many advantages to online renewal including:

- ✓ It is easy. Just go to the website at:
www.state.ia.us/nursing
- ✓ All you need is your license number, social security number, date of birth, MasterCard, VISA or a debit card. Answer all the questions. Pay the \$104.00 fee, which includes a \$5.00 online convenience fee.
- ✓ It is fast. Once the online renewal process is complete your license is immediately renewed and will be mailed in three to five working days.
- ✓ It is convenient. You can renew on your computer at home, at midnight or on a holiday if you choose. If you do not have a computer at home, you could renew on the computer at your local library or at your work place.
- ✓ Your information is secured/masked to protect your privacy.
- ✓ Online renewal reduces errors. The system will not let you move forward until all questions are answered.
- ✓ Online renewal is available for RNs and LPNs only.

Please note that the Board does not mail renewal forms to nurses whose licenses are due for renewal. We encourage all nurses to consider going online to apply for renewal. We think you will be surprised at how easy it is.

(Renewal lists and information for December 2006, January and February 2007 renewals begin on page 22.)

TELEPHONE VERIFICATION OF IOWA LICENSURE FOR NEW GRADUATES WHO PASS THE NCLEX® EXAMINATION

The Iowa Board of Nursing does not release NCLEX® examination pass/fail results by telephone or Internet. Candidates for licensure by examination are notified in writing of their test result. The Iowa Board of Nursing verifies Iowa licensure status through the automated telephone system on the first or second Wednesday afternoon following the test date if all the following have occurred:

- the candidate has applied for licensure in Iowa
- the candidate has passed the examination
- the NCLEX® result has been transmitted to the board by the test service

Telephone Verification

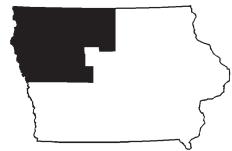

To verify licensure in Iowa, call 515-281-3255 and press 2 for initial licensure by exam information, press 2 again for exam results information. Now you will be prompted to the automated verification system. Through the verification system you will either be notified that a license is active and provided an expiration date or the system will state "invalid selection" which means your exam results have not been processed or you did not pass the NCLEX exam. Pressing 1 transfers to the automated verification system. License numbers are not released.

Questions may be directed to 515-281-6488 or newnurs@bon.state.ia.us.

RENEWAL NOTICE

By law, it is the licensee's responsibility to renew the license within the 60 days prior to its expiration. The list of licenses that expire in September, October, and November 2006 can be found in this issue. Please use the following schedule:

Licenses that expire September 15, 2006, are due by August 15, 2006, and can be renewed any time after July 15, 2006.

Licenses that expire October 15, 2006, are due by September 15, 2006, and can be renewed any time after August 15, 2006.

Licenses that expire November 15, 2006, are due by October 15, 2006, and can be renewed any time after September 15, 2006.

Licensees are encouraged to renew over the Internet at the board's Website at www.state.ia.us/nursing. Renewal over the Internet is reflected immediately in the data base, so there are no delays to allow for human intervention. Payment of the fee must be made by using MasterCard or VISA, credit or debit card.

If you don't have a credit card, you may enter the renewal information in the on-line licensure center, print each page as you go, and then cancel the transaction when you are asked for credit card information. Then submit all the printed pages with the renewal fee in the form of a check or money order.

If you are unable to renew over the Internet, you may contact the board office, preferably in writing, to request that a paper form be mailed to you. The mailing address is: Iowa Board of Nursing, 400 SW 8th Street, Suite B, Des Moines, IA 50309-4685. You may also request a paper renewal form by sending an e-mail to ibon@bon.state.ia.us, or faxing your request to 515-281-4825.

Inactive Status

Licenses that are not renewed will automatically be placed on inactive status on the 16th of the month following the expiration of the license. Reactivating from inactive status currently requires a paper form from the Iowa Board of Nursing.

Advanced Registered Nurse Practitioner (ARNP) Renewal Notice

ARNP licensees **CANNOT** renew their license over the Internet. ARNP renewal applications are mailed to the licensee's address of record sixty (60) days before expiration. Please watch for the yellow application in the mail. If an application is not received please notify this office by sending an e-mail to nevnurs@bon.state.ia.us or calling 515-281-6488.

Continuing Education

The continuing education requirement for renewal of a three-year license is 36 contact hours (or 3.6 CEUs) completed between the effective and expiration dates printed on the license. The first time a license is renewed after initially being issued, or after a reactivation, the requirement is 24 contact hours (or 2.4 CEUs) because the expiring license covered less than a full three years.
